THE COLLINS' EMBROGLIO. - We are informed by Dr. Collins that the statement of the difficulty between himself and Mr. Wolfe, published in THE News, was not correct in fact. Dr. Cellins says that he has instituted legal proceedings which will bring the truth to light. Until that is done he asks for a suspension of public opinion in regard to himself. SALE OF THE TYPE AND MATERIAL OF THE

CHARLESTON MERCURY.- The type and material of the Charleston Mercury was sold at public suction cesterday, by Mr. G. McBride Smith. About twenty persons were present, and the bidding was very dull. The press sold for \$65, the engine for \$216, the type for \$260, the imposing stones for \$50, and tre furniture and sundries for \$75.

AFTER DARK.—We do not expect to rival New York in the scenic effects at our Charleston Theatre, and it is a matter for congratulation that the theat trical troupes are able to put on the boards, with good effect, so sensational and stirring a drama as "After Dark." The Hibernian Hall Theatre is cleanly, comfortable and well ventilated, and has been during the season a source of great amusement to stran gers as well as Charlestonians.

CONCORD-STREET-OR CANAL? - This thoroughfare is in a horrible condition in rainy weather, and a plank road should be laid at once from Hasel to Pinckney-street. We heard this calculation made by a stranger, who had business during the late rainy spell with the Baltimore steamers and the Wand > Fertilizing Company: 600 running feet plank road (twenty feet wi :e, three inches thick)-36,000 feet at \$13 per M. \$462 would be the cost of the principal material; and this walking ready-reckoner wanted to know if such an outlay could not be afforded, at two and a half per cent. tax on real estate—or out of the \$50,000 appropriated for streets.

MELANCHOLY OCCURRENCE. -On the approach of the steamship Champion, from New York, to ner wharf in this city, about dark last evening, some exphysician be sent for. It was soon ascertained that fr. Robert Laton, a passenger, about sixty years of ege, had suddenly fallen prostrate on board, with he most serious symptoms. Immediate efforts were made by the officers and passengers to relieve him, and the services of Dr. W. T. Wragg were seen obtained; but the Doctor had hardly reached the paent when life was found to be extinct, supposed om a disease of the heart. While on shipboard the eased appeared to be in good health, and the sad went came with terrible quickness upon a daughter who accompanied him, and whose grief on the occaion appealed to the sympathy of all on board. FIRE IN HASEL-STREET. -On yesterday morning, at about four o'clock, a fire was discovered in the auction and commission house of Campbell, Knox & Co., Hase street, next south of the store of Straues & Vance, at the corner of Meeting, which apread with great rapidity, consuming the building and entire contents. The wooden stables of Richard McHunny, a thrifty celered man, next door, were o consumed; fortunately he saved his live stock and carriages, although he lost all his harness. He owned the property, which was uninsured. The fire burnt through to the rear of Meeting-street, damaging very materially the back of the store lately eccupled by Holmes & Calder, in which Mr. Wm. L. Webb, just recovering from a fire, was temperarily storing a portion of his stock of crockery, which was domged. The building occupied by Campbell, Knor & Do., and the one on Meeting-street burnt and dame ged by water, were the property of Messre. Spellerd d Hatch, the former of New York, and the latter of this city; on them there is an insurance of \$19,600 in the agency of Captain S. K. Tupper. The ook of Campbell, Knox & Co. is insured in the same agency for \$4000 and the office fixtures in the emcy of Z. B. Oakes for \$295. They saved a por-
